ORDER NO.

2014-443

**THIS DIRECTIVE SHALL SERVE AS THE COMMISSION'S ORDER ON THIS ISSUE.**

**SUBJECT:**

DOCKET NO. 2005-83-A - Public Service Commission of South Carolina - Administrative and Procedural Matters - Discuss with the Commission the Office of Regulatory Staff's Request Regarding Transportation Orders.

**COMMISSION ACTION:**

The issue to be addressed is the situation when various motor carriers fail to comply with Commission Regulations when they are granted a Certificate. At present, ORS moves to rescind the Commission orders granting the authority, which can be quite cumbersome if there are a large number of non-compliant motor carriers. ORS wants to streamline the process by addressing the non-compliance situation in advance in the original Order granting authority. I agree with this proposal, and move that with regard to Transportation Orders that grant authority and impose a 90-day time limit on compliance with Commission Regulations, language be added that declares these Orders null and void and the Application dismissed without prejudice automatically in cases where the Applicant either fails to come into compliance with all Commission Regulations within the 90 day time limit or fails to request an extension of the time period in which to comply. I also move that language be added to these Orders which requests that the Office of Regulatory Staff furnish the Commission the names and docket numbers of applicants who have failed to comply or to request an extension, so that this Commission can note that the particular Applicant's certification order has been declared null and void. ORS need only report this information every two months and may list a group of non-compliant Applicants, rather than reporting individual Applicants as they become non-compliant. Lastly, I move that our Transportation Orders continue to contain the language "That this Order shall remain in full force and effect until further Order of the Commission." This language is consistent with the provisions of Commission Regulation 103-853.
